SUMMARY

Final-year B.Tech Computer Science student specializing in AI Engineering. I use Claude, Claude Code, ChatGPT and Perplexity every day for code generation, debugging, prompt engineering and building AI-powered automation pipelines. Shipped real software: a deployed faculty management web app, a live e-commerce store (800+ orders, ₹3,00,000+ sales), and a YouTube content automation system built with Claude Code, VidIQ and InVideo. I program in Python and SQL, and I am actively building toward LangChain, RAG pipelines, AI agents and cloud infrastructure.

TECHNICAL SKILLS

AI Tools & LLMs: Claude, Claude Code, ChatGPT, Perplexity, VidIQ, InVideo — daily use for prompt engineering, code generation & AI-assisted development

Programming: Python (primary), SQL, C++, JavaScript

AI & Automation: Prompt engineering, AI automation pipelines, multi-tool AI workflows, human-in-the-loop QC

Web Development: HTML, CSS, JavaScript, WordPress, Shopify

Tools & Platforms: Git, GitHub, GitHub Pages, Canva, Meta Ads Manager

Currently Building: LangChain, RAG pipelines, vector databases, AI agents, cloud basics (AWS)

PROJECTS

YouTube Content Automation System — AI-Powered Pipeline

- Built an end-to-end AI content automation pipeline using **Claude Code**, VidIQ and InVideo for a US-audience YouTube channel
- Automated the full workflow: script generation, video creation, thumbnails, titles, descriptions and analytics
- System operates autonomously with human-in-the-loop oversight for quality control — live and producing content

Faculty Management System — Web Application

Live: ishpreetsuri.github.io/code-ishpreet | Code: github.com/ishpreetsuri/code-ishpreet

- Built and deployed a web application end to end using HTML, CSS and JavaScript; used Claude Code and ChatGPT throughout
- Implemented and tested add, edit and delete (CRUD) features for reliable data handling
- Deployed live on GitHub Pages — still running and accessible

EXPERIENCE

Founder, Cocokart | [cocokart-archive](#) | Nov 2025 - Jun 2026 (Completed — archived to GitHub)

- Built and ran a live Shopify e-commerce store end to end, serving **800+ orders** and **₹3,00,000+ in total sales**
- Managed full order lifecycle: storefront, product catalog, checkout, shipping logistics and delivery
- Ran Meta (Facebook/Instagram) ad campaigns with ≈₹40,000 managed budget for paid acquisition
- Used AI tools daily for content creation, listing optimization and analytics; store archived to GitHub

EDUCATION

Bachelor of Technology, Computer Science | 2023 - 2027

Guru Nanak Dev University, Jalandhar

CBSE Senior Secondary (Class XII) | 2021 - 2022

Guru Harkishan Public School, Punjabi Bagh

CBSE Secondary (Class X) | 2019 - 2020

Guru Harkishan Public School, Punjabi Bagh

LANGUAGES

English, Hindi, Punjabi

STRENGTHS

AI-native builder • Fast learner • High ownership • Ships and iterates • Strong analytical mindset
